

An Alfa Romeo Source List

Revised January 2007

by *David & Andrea Hammond*

David & Andea of AROC-Detroit compiled the first version of this parts and services directory in 1987. It was updated a couple of times through 1991 and reprinted in many chapter newsletters. Then the list slept for fourteen years. A completely revised version appeared in 2005, and updated in January 2007. Please send any updates, additions, closings or corrections to David & Andrea at: alfarodeo@aol.com

Oregon's Bill Daemke is an Alfa character you never forget. He answers one of the four AROC Technical Hot Lines, but Bill also made some remarkable duplicates of Giulietta Spider radio block plates. Then he crafted several sets of Giulietta tool kits. Some of the factory original tools got mixed in and now he can not tell which is which.

The name is from decades ago when Dean Russell leased a bay at Caesar's Trail Auto, a general auto repair shop, to work on Alfas full time. Trail Auto is an Alfa-only factory authorized repair facility, plus Dean keeps several parts cars, not to mention three warehouses of new and used parts at hand. Engine and transmission rebuilds, vintage restoration, race prep, Spica tuning. The yard and service bays are always filled with Alfas brought from all over for service.

The following is a list of vendors at a historic car show in Ferrara attended by Jim Hayes in June, 1995. The listed vendors sell used and reproduction

parts for Italian cars or specialize as noted. Most do not speak English. Obviously the list is dated, but I am not attempting to contact them and have neither of us understand what the other is saying.
